Circular

To ensure two layer protection on dealer login of DVAT portal, the provision of **two-factor-authentication** has been implemented on DVAT portal. The **two-factor-authentication** provision provide to login through password along with OTP on registered mobile of dealers.

After implementation of the two-factor-authentication on DVAT portal for dealer login, there is mandatory requirement of the OTP, so that, dealer can successful login along with their credentials. In this regard, the active mobile number of each dealer is required to be registered on DVAT Portal to receive OTP. However, It is found that the mobile number of some active dealers is not updated on the DVAT portal to receive OTP. In this regard, a '**request form**' for updation of mobile number of dealer to be generated by the dealer self through online (dealer login on DVAT portal).

To assist to dealer for smooth generation of '**request form**' updation of mobile number of dealer, the detailed SOP has been prepared and made available on the DVAT portal for the dealers and this circular is being issued to assist them through necessary action on the '**request form**' for updation of mobile number, so that, dealer can do successful login using their credential along with OTP as received on their registered mobile number.

This issue with prior approval of the commissioner (T&T).
