Applicable GST rate on Priority Sector Lending Certificates (PSLCs), Renewable Energy Certificates (RECs) and other similar scrips

Circular No. 46/20/2018-GST

6th June, 2018

1. Representations have been received seeking clarification regarding the classification and applicable GST rate on the Renewable Energy Certificates (RECs) and Priority Sector Lending Certificates (PSLCs).
2. Earlier, in response to a FAQ, it was **clarified** (vide advertisement dated 27.07.2017), that MEIS and other scrips like SEIS and IEIS are goods classified under heading 4907 and attract 12% GST, which is the general GST rate for goods falling under heading 4907. Subsequently, the duty credit scrips classifiable under 4907 were exempted from GST, while stock, share or bond certificates and similar documents of title [other than Duty Credit Scrips], classifiable under heading 4907, attract 12% GST.
3. Later on, Circular No. 34/8/2018- GST dated 01.03.2018 (S.No.3) was issued clarifying that PSLCs are taxable as goods at a standard rate of 18 % under the residual entry S. No. 453 of Schedule III of notification No. 01/2017-Central Tax (Rate).
4. As a result, there is lack of clarity on the applicable rate of GST on various scrips/ certificates like RECs, PSLCs etc.
5. The matter has been re-examined. GST rate of 18 % under the residual entry at S.No. 453 of Schedule III of notification No. 01/2017-Central Tax (Rate) applies only to those goods which are not covered under any other entries of Schedule I, II, IV, V, or VI of the notification. In other words, if any goods are covered under any of the entries of Schedule I, II, IV, V, or VI, the GST rate applicable on them will be decided accordingly, without resorting to the residual entry 453 of Schedule III.
6. As such, various certificates like RECs, PSLCs etc are classified under heading 4907 and will accordingly attract GST @ 12 %, though duty paying scrips classifiable under the same heading will attract Nil GST {under S.No. 122A of Notification No. 2/2017-Central Tax (Rate) dated 28.06.2017, as amended vide Notification No. 35/2017-Central Tax (Rate) dated 13.10.2017}.

7. Accordingly, in modification of S.No. 3 of Circular No. 34/8/2018- GST dated 01.03.2018, it is hereby **clarified** that Renewable Energy Certificates (RECs) and Priority Sector Lending Certificates (PSLCs) and other similar documents are classifiable under heading 4907 and attract 12% GST. The duty credit scrips, however, attract Nil GST under S.No. 122A of Notification No. 2/2017-Central Tax (Rate) dated 28.06.2017.

Clarifications of certain issues under GST- regarding Circular No. 47/21/2018-GST

8th June, 2018

Representations have been received seeking clarification on certain issues under the GST laws. The same have been examined and the clarifications on the same are as below:

Sl. No.	Issue	Clarification
1	Whether moulds and dies owned by Original Equipment Manufacturers (OEM) that are sent free of cost (FOC) to a component manufacturer is leviable to tax and whether OEMs are required to reverse input tax credit in this case?	<p>1.1 Moulds and dies owned by the original equipment manufacturer (OEM) which are provided to a component manufacturer (the two not being related persons or distinct persons) on FOC basis does not constitute a supply as there is no consideration involved. Further, since the moulds and dies are provided on FOC basis by the OEM to the component manufacturer in the course or furtherance of his business, there is no requirement for reversal of input tax credit availed on such moulds and dies by the OEM.</p> <p>1.2 It is further clarified that while calculating the value of the supply made by the component manufacturer, the value of moulds and dies provided by the OEM to the component manufacturer on FOC basis shall not be added to the value of such supply because the cost of moulds/dies was not to be incurred by the component manufacturer and thus, does not merit inclusion in the value of supply in terms of section 15(2)(b) of the Central Goods and Services Tax Act, 2017 (CGST Act for short).</p> <p>1.3 However, if the contract between OEM and component manufacturer was for supply of components made by using the moulds/dies belonging to the component manufacturer, but the same have been supplied by the OEM to the component manufacturer on FOC basis, the amortised cost of such moulds/ dies shall be added to the value of the components. In such cases, the OEM will be required to reverse the credit availed on such moulds/ dies, as the same will not be considered to be provided by OEM to the component manufacturer in the course or furtherance of the former's business.</p>
