

by the principal (not on account of body builder), the supply would merit classification as service, and 18% GST as applicable will be charged accordingly.

- 13.1 **Applicable GST rate on Disc Brake Pad:** Representations have been received seeking clarification on disc brake pad for automobiles. It is stated that divergent practices of classifying these products, in Chapter 68 or heading 8708 are being followed. Chapter 68 attracts a GST rate of 18%, while heading 8708 attracts a GST rate of 28%.
- 13.2 Parts and accessories of motor vehicles of headings 8701 to 8705 are classified under heading 8708 and attract 28% GST. Further, friction material and articles thereof (for example, sheets, rolls, strips, segments, discs, washers, pads), not mounted, for brakes, for clutches or the like, with a basis of asbestos, of other mineral substances or of cellulose, whether or not combined with textiles or other mineral substances or of cellulose, whether or not combined with textiles or other materials are classifiable under heading 6813 and attract 18% GST.
- 13.3 In the above context, it is mentioned that as per HSN Explanatory Notes, heading 8708 covers "Brakes (shoe, segment, disc, etc.) and parts thereof (plates, drums, cylinders, mounted linings, oil reservoirs for hydraulic brakes, etc.); servo-brakes and parts thereof, while Chapter 68 covers articles of Stone, Plaster, Cement, Asbestos, Mica or similar materials. Further, HSN Explanatory Notes to the heading 6813 specifically excludes:
- i) Friction materials not containing mineral materials or cellulose fibre (e.g., those of cork);
 - ii) Mounted brake linings (including friction material fixed to a metal plate provided with circular cavities, perforated tongues or similar fittings, for disc brakes) which are classified as parts of the machines or vehicles for which they are designed (e.g. heading 8708).
- 13.4 Thus, it is clear, in view of the HSN Explanatory Notes that the said goods, namely "Disc Brake pad" for automobiles, are appropriately classifiable under heading 8708 of the Customs Tariff Act, 1975 and would attract 28% GST.

Clarification regarding applicability of GST on the petroleum gases retained for the manufacture of petrochemical and chemical products.

Circular No. 53/27/2018-GST

9th August, 2018

References have been received regarding the applicability of GST on the petroleum gases retained for the manufacture of petrochemical and chemical products during the course of continuous supply, such as Methyl Ethyl Ketone (MEK) feedstock, petroleum gases etc.

2. In this context, it may be recalled that clarifications on similar issues for specific products have already been issued vide circular Nos. 12/12/2017-GST dated 26th October, 2017 and 29/3/2018-GST dated 25th January, 2018. These circulars apply *mutatis mutandis* to other cases involving same manner of supply as mentioned in these circulars. However, references have again been received from some of the manufacturers of other petrochemical and chemical products for issue of clarification on applicability of GST on petroleum gases, which are supplied by oil refineries to them on a continuous

basis through dedicated pipelines, while a portion of the raw material is retained by these manufacturers (recipient of supply), and the remaining quantity is returned to the oil refineries. In this regard, an issue has arisen as to whether in this transaction GST would be leviable on the whole quantity of the principal raw materials supplied by the oil refinery or on the net quantity retained by the manufacturers of petrochemical and chemical products.

3. The GST Council in its 28th meeting held on 21.7.2018 discussed this issue and recommended for issuance of a general clarification for petroleum sector that in such transactions, GST will be payable by the refinery on the value of net quantity of petroleum gases retained for the manufacture of petrochemical and chemical products.
4. Accordingly, it is hereby **clarified** that, in the aforesaid cases, GST will be payable by the refinery only on the net quantity of petroleum gases retained by the recipient manufacturer for the manufacture of petrochemical and chemical products. Though, the refinery would be liable to pay GST on such returned quantity of petroleum gases, when the same is supplied by it to any other person. It is reiterated that this clarification would be applicable *mutatis mutandis* on other cases involving supply of goods, where feed stock is retained by the recipient and remaining residual material is returned back to the supplier. The net billing is done on the amount retained by the recipient.
5. This clarification is issued in the context of the Goods and Service Tax (GST) law only and past issues, if any, will be dealt in accordance with the law prevailing at the material time.

54

Classification of fertilizers supplied for use in the manufacture of other fertilizers at 5% GST rate.

Circular No. 54/28/2018-GST

9th August, 2018

References have been received regarding a clarification as to whether simple fertilizers, such as MOP (Murate of Potash) classified under Chapter 31, and supplied for use in manufacturing of a complex fertilizer, are entitled to the concessional GST rate of 5%, as applicable in general to fertilizers (i.e. fertilizers which are cleared to be used as fertilizers).

- 2.1 The matter has been examined. Chapter 31 of the Customs Tariff Act, 1975 covers Fertilizers. The fertilizers are mostly used for increasing soil and land fertility, either directly, or by use in manufacturing of complex fertilizers. However, certain fertilizers and similar goods falling under this Chapter may be used for individual purposes like use of molten urea for manufacture of melamine and urea used in manufacturing of urea-formaldehyde resins or organic synthesis.
- 2.2 In the pre-GST regime, the concessional duty rate was prescribed for fertilizers falling under Chapter 31 of the Tariff (notification No. 12/2012-Central Excise). This concessional rate was applied to goods falling under Chapter 31 which are clearly to be used directly as fertilizers or in the manufacture of other fertilizers, whether directly or through the stage of an intermediate product.
3. In the GST regime, tax structure on fertilizers has been prescribed on the lines of pre-GST tax incidence. The wording of the GST notification is similar to the central excise notification
